

IEEE 1394 Digital CCD Camera Line

New Electronic Technology Vertriebsges. mbH (NET GmbH) presents:

The **FOculus Tiny IEEE1394** camera series comes in monochrome and color and includes a 1/3" CCD image sensor. The two models are available in VGA/XGA resolution. The lens mount can be C-/CS-mount. The **FOculus** Tiny series completes the **FOculus** line and is IIDC 1.31 compliant.

The **FOculus** S-series has been completed by the **FO442SB/SC** with a 2/3" CCD image sensor. The S- and T- series are available with a lockable IEEE1394 connector via lock-screws.

After completing the **FOculus** Series **NET** is able to offer the ideal camera for nearly every application according casing, image sensor size, resolution and frame rate.

Main field of application are machine vision, positioning, microscopy, semi con inspection, Barcode, Matrix code, OCR, OVC and much more.

Please don't hesitate to contact us for your individual support.
